

OAI-PMH Data Provider Validation

Initial validation checks (step 1)

baseURL is <http://pmb-bordeaux.fr/maggot/oai>
Validation only
Request logged from 147.100.103.57

Checking Identify response

REQUEST <http://pmb-bordeaux.fr/maggot/oai?verb=Identify> GET

PASS Administrator email address is 'daniel.jacob@inrae.fr'

PASS Correctly reports OAI-PMH protocol version 2.0

PASS baseURL supplied matches the Identify response

PASS Datestamp granularity is 'days'

PASS Extracted earliestDatestamp 2023-01-01

PASS oai-identifier description for version 2.0 is being used

PASS namespace-identifier (repositoryIdentifier element) in oai-identifier declaration is pmb-bordeaux.fr

The OAI-PMH data provider with base URL <http://pmb-bordeaux.fr/maggot/oai> has passed initial validation. An email message has been sent to the administrator's email address shown above which includes a URL to continue validation and/or registration. The purpose of this email step is to ensure that only the administrator can change the registration record of a data provider, and to avoid the possibility of excessive use of the validation script against a data provider by some third party.

OAI-PMH Data Provider Validation

Showing validation log

Running validation checks (step 2)

baseURL is `http://pmb-bordeaux.fr/maggot/oai`
Validation only
Request logged from `147.100.103.57`

Checking Identify response

REQUEST `http://pmb-bordeaux.fr/maggot/oai?verb=Identify` GET
PASS Administrator email address is 'daniel.jacob@inrae.fr'
PASS Correctly reports OAI-PMH protocol version 2.0
PASS baseURL supplied matches the Identify response
PASS Datestamp granularity is 'days'
PASS Extracted earliestDatestamp 2023-01-01
PASS oai-identifier description for version 2.0 is being used
PASS namespace-identifier (repositoryIdentifier element) in oai-identifier declaration is `pmb-bordeaux.fr`

Checking ListSets response

REQUEST `http://pmb-bordeaux.fr/maggot/oai?verb=ListSets` GET
PASS responseDate has correct format: 2023-10-03T11:47:01Z
PASS Extracted 1 set names: { maggot }, will use setSpec &set=maggot in tests

Checking ListIdentifiers response

REQUEST `http://pmb-bordeaux.fr/maggot/oai?verb=ListIdentifiers&metadataPrefix=oai_dc&set=maggot` GET
PASS responseDate has correct format: 2023-10-03T11:47:01Z
PASS Good ListIdentifiers response, extracted id 'oai:pmb-bordeaux.fr::Frimouss' for use in future tests.

Checking ListMetadataFormats response

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListMetadataFormats&identifieur=oai%3Apmb-bordeaux%2Efr%3A%3AFrimouss GET
PASS responseDate has correct format: 2023-10-03T11:47:02Z
PASS Good ListMetadataFormats response, includes oai_dc
PASS Data provider supports oai_dc metadataPrefix

Checking GetRecord response

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=GetRecord&identifieur=oai%3Apmb-bordeaux%2Efr%3A%3AFrimouss&metadataPrefix=oai_dc GET
PASS responseDate has correct format: 2023-10-03T11:47:02Z
PASS Datestamp in GetRecord response (2023-06-05) has the correct form for days granularity.
PASS Datestamp in GetRecord response (2023-06-05) matched the days granularity specified in the Identify response.
PASS Expected setSpec was returned in the response

Checking ListRecords response

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&from=2023-06-05&until=2023-06-05&metadataPrefix=oai_dc GET
PASS responseDate has correct format: 2023-10-03T11:47:02Z
PASS Response is well formed
PASS ListRecords response correctly included record with identifier oai:pmb-bordeaux.fr::Frimouss

Continued ...

Checking exception handling (errors)

REQUEST http://pmb-bordeaux.fr/maggot/oai?junk GET
PASS Error response correctly includes error code 'badVerb'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=junk GET
PASS Error response correctly includes error code 'badVerb'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=GetRecord&metadataPrefix=oai_dc GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=GetRecord&identifier=oai:pmb-bordeaux.fr::Frimouss GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=GetRecord&identifier=invalid"id&metadataPrefix=oai_dc GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListIdentifiers&until=junk GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListIdentifiers&from=junk GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListIdentifiers&resumptionToken=junk&until=2000-02-05 GET
PASS Error response correctly includes error code 'badResumptionToken'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc&from=junk GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&resumptionToken=junk GET
PASS Error response correctly includes error code 'badResumptionToken'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc&resumptionToken=junk&until=1990-01-10 GET
PASS Error response correctly includes error code 'badResumptionToken'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc&until=junk GET
PASS Error response correctly includes error code 'badArgument'
REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords GET
PASS Error response correctly includes error code 'badArgument'
PASS All 13 error requests properly handled

Continued ...

Checking for version 2.0 specific exceptions

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc&from=2002-02-05&until=2002-02-06T05:35:00Z GET

PASS Error response correctly includes error code 'badArgument'

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc&until=2022-01-01 GET

PASS Error response correctly includes error code 'noRecordsMatch'

Checking that HTTP POST requests are handled correctly

REQUEST http://pmb-bordeaux.fr/maggot/oai POST verb:Identify

PASS POST test 1 for Identify was successful

REQUEST http://pmb-bordeaux.fr/maggot/oai POST identifier:oai:pmb-bordeaux.fr::Frimouss metadataPrefix:oai_dc verb:GetRecord

PASS POST test 2 for GetRecord was successful

Checking for correct use of resumptionToken (if used)

REQUEST http://pmb-bordeaux.fr/maggot/oai?verb=ListRecords&metadataPrefix=oai_dc GET

PASS resumptionToken not used

Summary - *success*

- Namespace declared for v2.0 oai-identifiers is pmb-bordeaux.fr
- Total tests passed: 40
- Total warnings: 0
- Total error count: 0
- Validation status: COMPLIANT
